Russian is one of the richest and most difficult languages in the world. It is the language of literature and the greatest poets and writers: Pushkin, Nekrasov, Tolstoy, Chekhov, Nabokov. It is rich in synonyms, antonyms, idioms, slang, archaisms and borrowings. According to Dahl's dictionary the Russian language contains 200 000 words.

People in the Russian Federation speak Russian. Its closest spoken relatives are Ukrainian and Belarusian. Modern Russian also includes a large number of international political, technological and scientific terms.

Foreign students usually face a lot of difficulties while learning the Russian language because of its numerous suffixes and complicated punctuation rules. They are also really surprised with changing the word order in Russian sentences.

Russian is the eighth most spoken language in the world. It is estimated that more than 200 million native speakers use it. Russian is one of the six official languages of the United Nations. Large Russian-speaking communities also exist in Israel, Germany, the USA, Turkey and other countries.

- a) Russian is one of the easiest languages in the world.
- b) There are about two hundred thousand words in the Russian language according to Dahl's dictionary.
- c) It's difficult for foreign students to learn Russian.
- d) Russian is the 6th most spoken language in the world.
- e) More than 200 million foreigners speak Russian.
- f) There are big Russian-speaking communities in Germany, the USA, Turkey, etc.
